TO WHOM SO EVER IT MAY CONCERN

Herewith we are expressing our appreciation to Dr.V.Viswabaskaran, Proprietor of M/s. VB Ceramic Consultants and his team members for his dedicated efforts in design and development of sand heating equipments to our organization. They have supplied four numbers of double shaft screw model and two numbers of metal conveyor model with capacity of 3 tone/hour. The equipments are user friendly and we have obtained encouraging and reliable results from the equipments.

. Dr.Viswabaskaran and team has been very co-operative and providing variable service to maintain the facilities. We were very happy and comfortable to discuss our technical requirements to get solutions from him through out the period of development of sand heating equipment.
